Reduced Prices on Fruit Trees

Grapes, Roses, Etc., for Spring Planting

THE great need of **larger orchard plantings** is strongly urged in the reports of the U. S. Government, which point out that the number of bearing trees—or young trees coming to bearing—in Apples and Peaches, was, in 1921, 40 per cent. behind the number in 1910; while in the same period, population has increased 15 to 25 per cent. A serious shortage in the fruit supply will necessarily follow.

To encourage heavier plantings for both orchard and home garden we have reduced prices on all Fruit Trees to the lowest possible figure consistent with the delivery of high grade stock, and we earnestly recommend to our customers the wisdom and importance of putting out this spring all the trees you can take care of.

Order at Once. Many varieties are pretty well sold out; others are going rapidly. Send orders quickly, that we may reserve the varieties and grades wanted and make early shipment.

NORWAY MAPLE

EVERYTHING for the Lawn, the Orchard and the Fruit Garden

MAKE your HOME GROUNDS ATTRACTIVE

A careful planting of trees, shrubs, vines, roses, peonies, etc., will give to your home that distinctive personal touch which makes it "different" from the surrounding places.

Make your selections now---or if desired, write us of your plans, and we will assist you in the selection of varieties suitable for your purpose and suggest proper ways for grouping and planting.

You probably have our catalogue on file, sent you some time since. If not, send for another copy. It offers

AN APPLE ORCHARD FOR \$100

Ten acres, 300 trees, standard commercial varieties, orchard size, X grade.
5 acres, 150 trees, for \$60.00.

These are fine young trees, 2 and 3 years old, well grown, with good roots and tops, entirely suitable for orchard planting.

Larger size, 300 trees, for \$135.00; larger size, 150 trees, for \$75.00.

A PEACH ORCHARD FOR \$75.00

300 trees, orchard size, X grade, fine young trees, and excellent for orchard planting. 150 trees, same grade, \$40.00.

Larger size, 300 trees, \$100.00. Larger size, 150 trees, \$55.00.

Plant peach trees as fillers in your apple orchard. Save land, labor and cultivation and get quick returns.

GRAPES

The Eighteenth Amendment has brought about a big demand for grapes for both vineyard and home planting. Many people are now growing their own grapes for preserving, jellies, grape juice, etc.

SPECIAL.—For large plantings we offer strong one-year-old vines at \$175.00 per 1000; Concord and Niagara at \$140.000 per 1,000.

BERRIES

There is big money in berries. They do not require much ground, yield heavy crops, and will usually bear the second year, bringing quick returns.
